## SHUDDERS AT HIS PAST.

"I recall now with horror," says Mail  
Carrier Burnett Mann, of Levanna, O.,  
my three years of suffering from Kid-  
ney trouble. I was hardly ever free  
from dull aches or aches pains in my  
back. To stoop or lift mail sacks  
made me groan. I felt tired, worn out,  
about ready to give, when I began to  
use Electric Bitters, but six bottles  
completely cured me and made me feel  
like a new man. They're unrivaled to  
regulate Stomach, Liver, Kidneys and  
Bowels. Perfect satisfaction guaran-  
teed.

THEN AND NOW.

With the mining excitement in Wash-  
 take the dimensions of the mining  
 developed on the Comstock in its  
 "her days." It may not make its ap-  
 pearance in billows as it did on the old  
 in the sixties and early seventies,  
 but there is a foundation laid for a  
 mining craze with much to support it.  
 There is not anything present in the  
 mind of the writer that would tend to  
 cause dissipation in anything he says  
 about Washoe or about incipient fever  
 taking its appearance. There would  
 be anything gained to the country  
 to the country at large by misrep-  
 resenting facts or by stating more than  
 the truth as it is observed by those  
 who are engaged in earnest effort to  
 bring the hitherto latent wealth of the  
 country where it can be seen and used  
 advantage.

To say the least that may be said,  
 there are indications of a mining fever  
 which has not been experienced by  
 the people of Western Nevada since  
 Comstock times. A more extensive ex-  
 ploration of the country than was  
 given it by early prospectors brings to  
 light deposits of mineral wealth that  
 surpass sanguine expectations by those  
 gaged in the work of development.  
 The country to the north of the  
 Comstock mine has been prospected  
 diligent workers for the purpose  
 ascertaining if there are other de-  
 posits such as explorations in the  
 Comstock mine indicate there is in  
 at seeming fabulous deposit. Where  
 excavations have been made to  
 the northward on the line of mineral  
 development connected with the Wed-  
 kind, highly mineralized rock has been  
 discovered. It is known that the hill  
 formations of the country north of the  
 Wedkind for a distance of not  
 less than two miles is largely miner-  
 alized. The country partakes of the na-  
 ture and appearance of that portion of  
 immediately connected with the  
 Comstock deposit.

These indications make up the story  
 nature to the prospector, which is  
 clothed in language that conveys truth  
 respecting its efforts when volcanic  
 action and its immense forces were  
 breaking the crust of the earth and  
 causing fissures to be made which were  
 later filled with gold and silver and such  
 other metals as became a part of the  
 earth's crust when it was forming.  
 The excavations made are superficial  
 they indicate an universal presence  
 of mineral in the area explored in the  
 which leads to continued work  
 development by those who have  
 made locations in the highly mineral-  
 ized belt connected with the system  
 on which the Wedkind made an ap-  
 pearance at the surface of the ground.  
 There are other centralized deposits  
 in the system as it is not probable  
 that nature began and finished the  
 work in the Wedkind deposit. The  
 evidence of extensively operating for-  
 ces cover too large an area to become  
 exhausted at the lower, or southerly  
 end of the system.

The values present are too plentiful  
 and extensive to furnish an argument  
 which favors a single deposit at its  
 west and most southerly point. The  
 hills which bound Prosser Valley on  
 the east which are located not less  
 than two miles northerly from the  
 Wedkind mine are more generally  
 mineralized than the country in the  
 immediate vicinity of the Reno Star.  
 The Wedkind which tends to show  
 that thermal action had been more  
 general to the north in the higher hills  
 than it was to the south or nearer to  
 the Truckee Valley. It also shows  
 that thermal action was not only more  
 general but stronger or of greater  
 force than it was at the southerly or  
 lower end of the system.

In the more general and stronger ac-  
 tion to the north it is not reasonable  
 to conclude that there has not been  
 centralized, or fissure action in abun-  
 dant in the hills all the way from  
 Truckee Valley to the upper or north-  
 erly end of Prosser Valley.

There is much of the country that  
 is covered many feet in depth by de-  
 composed matter from the mineralized  
 hills above it, but, strange as it may  
 seem, the decomposed matter that na-  
 ture has used in the ages of the earth  
 which have passed since the original

**AN EXCELLENT COMBINATION.**

The pleasant method and beneficial  
 effects of the well known remedy,  
 SYRUP OF FIGS, manufactured by the  
 CALIFORNIA FIG SYRUP CO., illustrate  
 the value of obtaining the liquid laxa-  
 tive principles of plants known to be  
 medicinally laxative and presenting  
 them in the form most refreshing to the  
 taste and acceptable to the system. It  
 is the one perfect strengthening laxa-  
 tive, cleansing the system effectually,  
 dispelling colds, headaches and fevers  
 gently yet promptly and enabling one  
 to overcome habitual constipation per-  
 manently. Its perfect freedom from  
 every objectionable quality and sub-  
 stance, and its acting on the kidneys,  
 liver and bowels, without weakening  
 or irritating them, make it the ideal  
 laxative.

In the process of manufacturing figs  
 are used, as they are pleasant to the  
 taste, but the medicinal qualities of the  
 remedy are obtained from senna and  
 other aromatic plants, by a method  
 known to the CALIFORNIA FIG SYRUP  
 CO. only. In order to get its beneficial  
 effects and to avoid imitations, please  
 remember the full name of the Company  
 printed on the front of every package.

upheaval of the country to fill up de-  
 pressions, and make valleys, is not  
 only generally mineralized but in many  
 places highly so with gold, silver and  
 other metals, which should be con-  
 clusive that there is an extensive fis-  
 sure district connected with these  
 largely decomposed mineral deposits in  
 the lower parts of the district.

There should not be much doubt  
 entertained about the future of a dis-  
 trict which contains evidence of  
 wealth, whenever tests are applied to  
 secure it. These statements present  
 some of the causes operating at this  
 time to cause excitement over the pres-  
 ent and probable future of the mining  
 country north of Reno. Prospecting is  
 becoming more systematized and better  
 effort may be seen everywhere in the  
 district than there was a year ago,  
 which will lead to discoveries that may  
 eclipse in wealth the almost famous  
 Reno Star.

## BRYAN CITY DOINGS

**Happenings in one of Washoe's  
 Flourishing Mining  
 Camps.**

The Wedkinds have returned from  
 San Francisco. Rumors of the sale of  
 the Reno Star mine are vehemently  
 denied so it must be so—that is it  
 must be so that it has not been sold.  
 The output of the Bell mine has in-  
 creased to about 150 tons per week.  
 The ore runs from \$75 to \$200 a ton.  
 A million dollars would not buy the  
 mine.

The shifts on the Reno Star have  
 been extended from eight to nine hours  
 and only two will be run daily, but  
 each will contain more men. It was  
 reported that the change had occa-  
 sioned a strike, but only six men quit.  
 This mine will shortly produce forty  
 tons a day. Preparations are nearly  
 completed to begin stoping.  
 Good rock continues to come out of  
 the Smith & Kelly mine.  
 The shaft in the Eastern Star mine  
 is now seventy feet deep. Assays show  
 that the rock is improving. No ship-  
 ments have yet been made.  
 Lorin & Gilling are still in the pay  
 formation they cut last week. Their  
 force is still sinking in hopes of pick-  
 ing up a quartz fissure.  
 "Uncle George" Schaeffer denies that  
 he has hundred dollar ore, but has a  
 heap of stuff piled separate from the  
 waste that is "lousy" with chloride.  
 It is estimated that 150 men are at  
 work in Bryan City and vicinity. The  
 camp is steadily growing.

**FOR THE KRAUS MEDAL.**  
 The annual declamation exercises for  
 the Kraus medal took place last even-  
 ing in the gymnasium. A number of  
 declaimers occupied the forum and ed-  
 ited the large audience. The first place  
 was won by Miss Mattie McMullen.  
 Mr. Wright secured second place and  
 "Patsy" Nathan carried off third hon-  
 ors.

## LARGE BRICK WAREHOUSE

**Senator Flanigan Embarks in an  
 Enterprise That Will  
 Benefit Reno.**

The contract has been let for the  
 construction of a big fire proof ware-  
 house. Work upon it will begin im-  
 mediately. It will be located on the  
 east end of Fourth street, opposite the  
 cattle corrals. The building will be  
 constructed of brick and corrugated  
 iron. It will be 100x150 feet, ground di-  
 mensions.

The building will be constructed by  
 Senator Flanigan and used as a ware-  
 house. It will have a capacity for 5000  
 bales of wool. In addition to this com-  
 modity, Senator Flanigan will handle  
 coal, hay, grain and other produce.

An enterprise of this sort is great-  
 ly needed in Reno and will doubtless  
 be a paying investment.

Although the building will not be  
 ready for the spring clip, Senator Flan-  
 igan is buying wool and paying the  
 highest cash price. He has already  
 made several heavy purchases.

This warehouse is a stepping stone  
 to a wool scouring works, although  
 the projector did not suggest anything  
 of this sort to the Journal reporter.  
 After a scouring works, naturally fol-  
 lows a woolen mill. However, the  
 latter two institutions are favored by  
 the wish rather than the fact.

## A U. S. FISH OFFICER

**Superintendent Tullian is Inspect-  
 ing the Truckee River for  
 the Government.**

Eugene A. Tullian, Superintendent of  
 the U. S. Fish Commission, is spend-  
 ing a few days in Nevada, making  
 Reno his headquarters. Mr. Tullian  
 went to Wadsworth yesterday, and  
 made a careful examination of all  
 dams and fishways in that neighbor-  
 hood. He expresses himself as well  
 pleased with the way the fish are  
 treated in the Truckee and says it is  
 one of the finest fishing streams in the  
 United States. Mr. Tullian realizes the  
 fact that the California Fish Commis-  
 sion is doing good work to keep the  
 stream supplied with the finest fish  
 in the land, but thinks the State ought  
 to have a fish hatchery of its own, and  
 in company with Jas. Merklinger,  
 Washoe's Fish and Game Warden, took  
 a stroll up the river and pointed out  
 several ideal places for a hatchery.

The U. S. official and Mr. Merk-  
 linger go to Verdi tomorrow to inspect  
 the hatchery at that place, and also  
 the dams and fishways along the route.  
 Mr. Tullian is an enthusiastic official  
 and well up in fish matters, and is  
 giving Fish Warden Merklinger many  
 valuable pointers, which the public will  
 reap the benefit of.

**OUR VERDI LETTER.**

In the latest correspondence from  
 Verdi the Journal unintentionally made  
 its up-river correspondent silly by put-  
 ting in a headline where it didn't be-  
 long. The error was corrected in the  
 weekly edition. The readers of the  
 Journal will concur in the statement  
 that the neighbor to the west is given  
 excellent representation in this paper  
 by the correspondent aforesaid. This  
 department of the Journal is the only  
 advertisement that the resources of  
 that splendid and rapidly growing  
 town get in the newspaper world.

**SIGN OF GOOD TIMES.**

At this season of the year money is  
 usually scarce and business dull, be-  
 cause the laborers are all out tolling  
 in the mills, mines and lumber camps,  
 but this season there are more stran-  
 gers in town than usual. Money is plen-  
 ty. Business men are doing well and  
 the roulette wheel is spinning all over  
 town.

### Narrow Escape.

**LONDON, May 23.**—Shamrock II was struck  
 by a sudden squall near Cowes yesterday and dis-  
 mantled. Her standing rigging and bowsprit  
 were carried away. King Edward, who was on  
 board, narrowly escaped death or serious injury  
 from falling tackle. The accident makes it neces-  
 sary to postpone the cup races three weeks or more.

### The Grant Wrecked.

**VICTORIA, B. C., May 23.**—The revenue  
 cutter Grant was wrecked twenty miles from this  
 city yesterday. All the officers and men escaped  
 to shore. The vessel hung up on an uncharted  
 rock and may be saved.

## WIT AND HUMOR

### How There Are Occasional Funny Outcroppings in Solemn Law Proceedings.

In the most solemn judicial proceedings there is always room for the admission of a sun ray of humor.

A murder case was being tried yesterday before Judge Currier. It was a solemn affair, but there was a bit of quiet fun sandwiched in, despite the frowns of the judge.

John Sunderland, Jr., was called as a jurymen. He testified that he had heard something about the case, including a conversation with the defendant's attorney. "But when I talked with Mr. Williams, I didn't hear anything," said the juror with painful frankness. Needless to say, he was peremptorily challenged by the defense.

District Attorney Pike always began his interrogations of the jurors with the question: "Have you any conscientious scruples against capital punishment?" but he had the unfortunate habit of pausing after the fifth word of his interrogation and the jurors invariably answered, "No."

There were several Reno business men on the panel and it was amusing to notice how strongly each was impressed with the guilt or innocence of the defendant—"Beesness, yer Honor."

### "SHORTY" CAPTURED.

Who would imagine that Shorty, the bootblack, would jump his job? but he did so nevertheless the other day Shorty's job is working in the chain-gang. He takes semi-occasional vacations, but they are short lived.

He doesn't feel comfortable out of jail. Crabs and lodging are too hard to rustle. In a day or two after acquiring his freedom he commits some breach of the peace and back he goes to his happy home.

The other afternoon he laid down his shovel, climbed out of the sewer trench and took French leave. Whatever possessed the little old fellow to do so will probably never be learned. As fast as his legs could pack him he scurried away to the southward. Yesterday he was captured in Virginia and is again the guest of Sheriff McInnis, happy as a clam at high tide.

### ACROSS THE CONTINENT.

Automobilist Winton and his companion were stalled at Cascade last evening by the breaking of the steering head of their machine. They are waiting the arrival of a new part from San Francisco on this morning's train and will then resume their journey. They hope to arrive in Reno, on their way eastward, about 9 p. m. today.

We hope that the Wheelmen of Reno will turn out and give them a welcome. They need and deserve encouragement on their arduous trip.

Some of the Wheelmen ought to meet them at Laughtons and point out the more level road on the south side of the river. This would be best for them, and at the same time, bring them through the principal parts of town.

#### THE RACE IS ON.

The Wheelmen have received assurance that the Garden City Wheelmen will be here to do battle for the championship on the 30th of June. The San Jose team is acknowledged to be the very best team on the coast that has not met defeat at the hands of the Reno cranks. Their team is composed of such men as Jack Wing, Foster, Downing brothers, Ziegler, etc., while we have such crack riders as Keddie, Stanley, Hart, Peckham brothers, Thompson, Shaver, Fraser, Kornmeyer, Meschon, and others.

The race will be the hottest contested event ever held in the State, and will draw the largest crowd ever gotten together in Reno.

Both teams are down to hard training and the San Jose men are making record breaking time. Some of the Reno team so far, are not in training, but inside of a week at least twenty riders will be trying for a place on the first team. Go at it boys, for you must win this race.

#### A MINING LAWYER.

S. Cottrell, a prominent mining lawyer of Salt Lake, has located in Reno and intends making this his home. Mr. Cottrell comes highly recommended in his branch of the legal profession.

## TRIAL FOR MURDER

### The District Court Was Engaged Yesterday With the Soso Case.

The trial of Elmo Soso on the charge of murder was before the District Court yesterday. The offense is alleged to have been committed on the 28th day of March of the present year. Joaquin Valenzuela was on that night shot through the abdomen and Soso was arrested for the crime.

Considerable difficulty was met with in obtaining a jury. The last name on the panel was exhausted before the twelfth "good man and true" was accepted. The following are trying the case: Chas. Pring, L. J. Harland, H. Hamp, J. H. Bastian, H. E. Blasdel, S. B. Richardson, J. H. Talbot, J. Frey, Jr., W. J. Brandon, M. McGuire, J. H. Seagraves and G. H. Fogg.

District Attorney Pike prosecuted the case and the defense was conducted by Mr. Williams.

The first witness called was "Uncle Dick" Nash, the night watchman who made the arrest. Several of the defendant's fellow countrymen and W. M. Gotwaldt, city editor of the Journal, were examined for the prosecution. The case was not completed last night.

## PERSONAL MENTION

### Gossip About the Migrating Public as They Come and Go.

George Wedekind and his son, John, came up from San Francisco yesterday morning.

Mr. and Mrs. J. P. Meder of Carson arrived from San Francisco yesterday and continued through to their home.

S. Summerfield has gone to Elko, supposedly on business pertaining to his office as United States District Attorney.

K. Nelson is spending a few days in Wadsworth.

Chas. McEachren, a mill man of Olinghouse Gulch, is spending a few days in Reno.

N. C. Hummel, editor of the Dispatch, was a visitor to Reno yesterday.

John Mawhinny is down from Florissant for a brief visit.

George Carr is down from Gold Hill. R. S. Anable of North Adams is a guest at Riverside.

Mr. and Mrs. C. E. Hall of San Francisco are visiting friends in Reno.

J. Franke is a visitor from Lakeview.

Engineer Taylor is here from Golconda.

C. E. Bray was down from Carson yesterday.

R. T. Pine, a mining man of Lundy, is stopping in Reno a few days.

Al Revert, the Verdi millman, spent yesterday in Reno.

John Rafferty is spending a few days in Sacramento and San Francisco.

Judge Woodburn of Carson was in town yesterday.

Mrs. W. A. Holmes, who had been quite ill, is on the way to recovery.

## MILL FOR STATE LINE.

The active breaking of ground for the new mill with which Ophir dividends are to be paid out down at Stateline will begin on Monday next and the work pushed with all possible energy. Mr. F. H. Lathrop, manager of the property, who returned to Salt Lake yesterday after staking out the site for the new mill, says the property underground is presenting better appearance with every shift, and that at 240 feet along the 400-foot level the superintendent is shooting into the high grade ore on their dip from upper levels. The milling ore are at present in great abundance.—Salt Lake Tribune.

#### BE CAREFUL OF YOUR EYES.

If your eye lids become inflamed or your eyes water or burn when reading it is almost a certain fact you need glasses. Go to Golden's and have them examined free of charge. All glasses guaranteed.

## COMMITTEE SUGGESTED

### Let No Time be Lost in Preparing a Reception to the President.

The time is growing short for preparations to be made for the reception of the Presidential party in Reno. There is apparent apathy in the matter which should not exist.

The Journal has thrown out a suggestion that a self-constituted committee arrange for the reception to the nation's Chief Executive and his traveling companions. Nothing has been done in the matter and the Journal will be compelled to take upon itself an important duty and name the committee, which in its opinion should have the following nucleus:

GOVERNOR SADLER,  
PRESIDENT STUBBS,  
R. W. PARRY,  
A. C. BRAGO,  
R. L. FULTON,  
COL. MAXSON,  
SAM DAVIS,  
JOS. R. RYAN.

This committee could be added to or subtracted from. At any rate it is a start made. The gentlemen composing this committee are requested to forward immediately to the Journal any suggestion they may desire to make regarding the manner in which the reception shall be conducted. There is no time to spare. In less than a week the Presidential train will pass through Nevada.

## LITTLE LOCAL BREVITIES

An extension is being built to the store of M. Frank & Co.

The structural iron for the Martin building has arrived and work has been resumed on the building.

The Normal reception will take place this evening in the gymnasium.

Excellent progress is being made with the new telephone line from Reno to Wadsworth.

Don't fail to attend the meeting of claim owners in the Court House tomorrow evening. The nucleus of what promises to be a strong State organization will be formed.

C. A. Strong and Nellie McMullen, both of San Francisco, were married in this city yesterday.

The town fund consists of a vacuum of nearly \$2500.

George W. Perkins is somewhat improved in health.

#### A SAD ERRAND.

M. P. Donnelly, County Superintendent of Schools for Plumas county, was in Reno yesterday and continued on to Boonville, California, where his brother, Wm. D. Donnelly, was shot Monday. The latter was to have been married next week.

#### QUITE AN INCREASE.

George D. Winters, the School Census Marshall, has nearly completed his enumeration for Reno School District. He believes that his report will show quite an increase in the school population.

## NEWS OF THE WORLD.

### Brief Summary of Yesterday's Happenings in This and Other Lands

The British cup challenger was dismantled yesterday. King Edward, who was aboard, narrowly escaped death.

President McKinley was tendered a reception yesterday by the San Francisco Knights Templar.

The strike situation remains unchanged. Forty thousand men are out. Heavy floods are destroying life and property in eastern Tennessee.

Superintendent Wright of the Sacramento division of the Southern Pacific has tendered his resignation.

The powers decline to accept less than \$200,000,000 indemnity from China.

#### INTER-STATE CONTEST.

Today the field day team and debaters for the Utah State University are expected to arrive in Reno—maybe not all tomorrow morning—but no matter when they come, they will receive the college yell and a Nevada welcome. Don't forget the inter-collegiate debate in the gymnasium tomorrow evening and the field day contest Saturday afternoon. Utah is our sister State and is populated with good people. Let's show them some sagebrush hospitality.

## The McCormack Mower Leads the World Over.

Competitors often say just as good as a McCormack but the McCormack never has to say "Just as good." It runs lighter and lasts longer; will not choke in heavy grass. Extras cost one-third less than on cheap machine.
